MODEL NUMBER IDENTIFICATION

1	2	3	4	5	6	7
F&P	H	160	E	L	P	WHWH

1. Brand name of Cabinet

F&P = Fisher & Paykel

*K = Kelvinator

*F = Frigidaire

2. Type of Refrigeration System

H = Home Freeze

3. Freezer volume of Cabinet

510 = 510Litres

4. Type of Lid

S = Standard

E = Electronic includes Interior light (Fast Freeze PCB Timer in the lid)

X = Interior Light / Non Electronic

5. Lock (If lock fitted)

L = Lock

6 Styling: Series / Refrigerant

P = Softline / R12 Refrigerant System

R = Softline / R134a Refrigerant System

7. Colour of the Cabinet / Lid Panel and Trims

	Cab	Trim
WHWH	White	Light Grey

Note:

* As from April 2001 Fisher & Paykel Appliances no longer produced Cabinets manufactured under the Kelvinator and Frigidaire Brand.

GUIDE TO USING THIS MANUAL

The model(s) and/or series covered by this manual are listed on the front cover.

The information detailed in this manual is subject to change without notice, the latest version is indicated by the reprint date and replaces any earlier editions.

The front cover picture shows the type of product and may not necessarily be an exact image of the models covered by the manual.

Part References

Where a Model is shown, the part is exclusive to the Model(s) stated. Common parts relating to a part reference are applicable to all other Model(s) which use the particular item.

Kit Parts

The components shown in *italics* are those parts in the kit which are available also as separate items. In addition, some parts may be supplied with this kit which are not available as separate items and are therefore not listed in this manual.

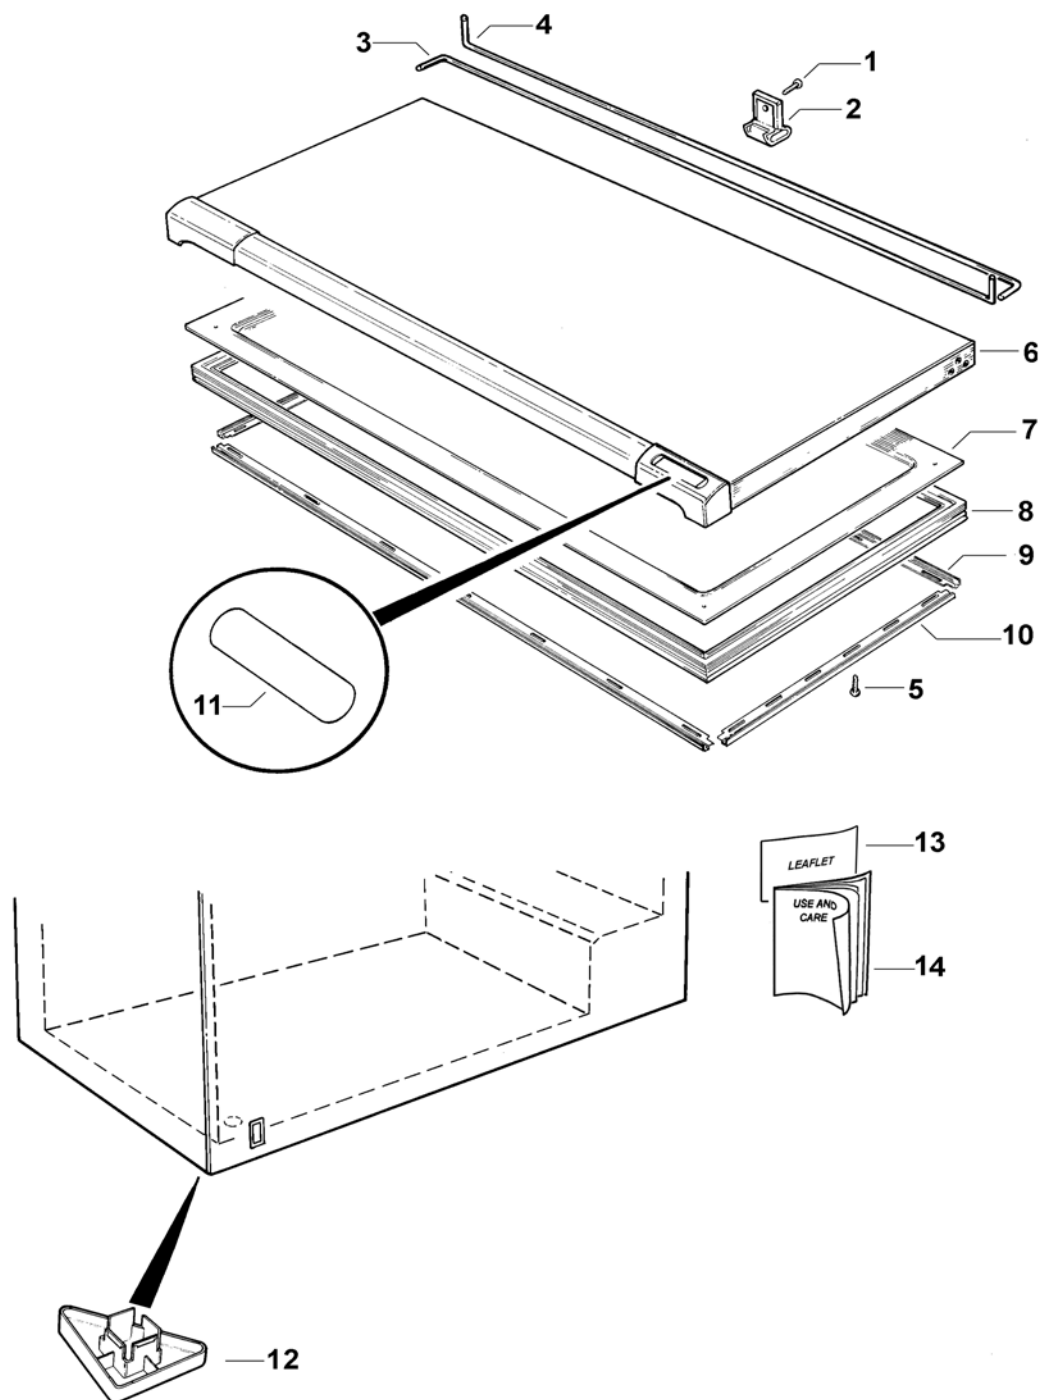

All details relating to Technical Bulletins or Notes are shown on a dedicated page. The Technical Bulletin Number shown relates to the bulletin version which is produced for New Zealand Service Centres.

Parts List Key

NOT USED	As a part, indicates the diagram part reference is not used in this manual.
#	Beside the part number, indicates the part is no longer available.
<i>italics</i>	Kit components shown in <i>italics</i> are also available separately.
*	Indicates a technical bulletin or note exists for the part or part reference.
NI	As a part reference, indicates the part is not illustrated on the diagram.

NOTES

LID GROUP

Notes

PUSH IN GASKET

Introduced on Chest Freezer Lids in April 2001. The gasket remains magnetless but the profile is different to the previous Screw Clamp Retainer type Gaskets. The Screw Clamp Retainer type Gasket and metal Retainers will continue to be available as a spare part.

Complete Spare Part lid assemblies will continue to be supplied with the gasket and the part numbers will remain the same irrespective to the type of gasket fitted. Details released in Technical Bulletin RF032 April 2001.

LID LINERS

Lid Liners for Standard Models are gradually replaced with the corresponding Electronic liners. When replacing a Standard liner with an Electronic liner also order Pt No. 880936 Cover Lamp Recess to cover the unused light recess.

880936 Cover
Lamp Recess

Use in conjunction with a replacement Electronic Lid Liner when fitted to in place of a Standard Liner, (refer above note on lid liner). The cover fits over the unused light recess
